Product Description

A globe for big appearances: With its chrome-plated metal frame, shiny globe and stable base, the futuristically designed 430 x 1320 millimetre APOLLO 17 standing globe also cuts a fine figure as an elegant gift or in prestigious rooms. A special feature are the mountains in relief, the two axes allow the globe in English to be moved in all directions simultaneously. Globe with 43 cm diameter and base, chrome-plated metal base, total height 1.32 m, topographical map with relief, two movable axes, plastic / metal, glossy, blue / green. High-quality workmanship: High-quality standing globe with a total height of 132 cm, every angle is visible thanks to its two axes, simultaneous movement in all directions, stands on a sturdy, chrome-plated metal base. The futuristic globe is emphasised by the mountains in relief. Attractive design: The shiny physical globe SPUTNIK has a diameter of 43 cm and is mounted on two axes. It shows green-brown country areas and dark blue seas and is labelled in English with continents, countries, oceans, geographical zones, important cities, deserts and mountains. Functional and decorative: Creates a pleasant environment for discovery and learning and is a stylish addition to your home or office, combining education and aesthetics. Added value: With its realistic details and high-quality finish, the globe is not only a decorative element, but also an educational tool for curious minds of all ages.
