Product Description

Cartonic 3D puzzles are the easy and environmentally friendly way to create a real work of art out of cardboard. It's a pre-cut set of cardboard discs, as simple as 1-2-3. During the making process, you can literally see it being created layer by layer. When you're done, you can make your artwork even more unique by painting it or placing it in your home as is. But we should warn you that you might need a new one as soon as you've assembled it, because the process is kind of addictive. WHAT IS SO CULT? The funniest fart in the world. This emoji originated in Japan and is now even a children's book character. You may not know it, but the Japanese word "unko" for poop is very similar to the word "oon" or "happiness". So basically, you can keep this guy at home as a good luck charm. At least he'll keep boredom away. Details- Details Quantity: 120 pieces- Size of the assembled puzzle: 13.2x14.8x15.4 cm and 5.15x5.77x6.01 in- How much time does it take? Between 30 and 60 minutes, depending on the number of pieces and your willingness to put the puzzle together as quickly as possible to enjoy the process.
