Product Description

Cartonic 3D puzzles are the easy and environmentally friendly way to create a real work of art out of cardboard. It's a pre-cut set of cardboard discs, as simple as 1-2-3. During the making process, you can literally see it being created layer by layer. When you're done, you can make your artwork even more unique by painting it or placing it in your home as is. But we should warn you that you might need a new one as soon as you've finished assembling it, because the process is kind of addictive. WHAT IS SO CULT? Born a wealthy prince, he left everything behind to walk the path of truth when he saw the poverty and disease beyond his palace walls. Now his figure is the teacher for millions of people on their path to enlightenment. Not to hurt others, to control his desires and ultimately not to suffer. That sounds like a good plan. If you're not ready to meditate for days under the fig tree, try assembling a Buddha puzzle. - Details Quantity: 79 pieces- Size of the assembled puzzle: 18x11.2x15 cm and 7.02x4.37x5.85 in- How much time does it take? Between 30 and 60 minutes, depending on the number of details and the willingness to put the puzzle together as quickly as possible to enjoy the process.
