Product Description

WHAT IS CARTONIC?Cartonic 3D puzzles are the easy and environmentally friendly way to create a real work of art from cardboard. It's a kit of pre-cut cardboard discs, as simple as 1-2-3. During the making process, you literally witness it being created layer by layer. When you're done, you can make your artwork even more unique by painting it or placing it in your home as is. But we should warn you that once you've assembled it, you might need another one straight away, because the process is addictive.WHAT IS SO CULT?What was meant to be a symbol of Russia's "second largest army in the world" became a manifestation of Ukraine's desire for freedom. The flagship of the Russian navy somehow turned out to be a submarine. One day we will know for sure what happened to the cruiser Moskva. Until then, we still have to put the puzzle together. Perhaps piece by piece you will see the whole picture, which is now labelled "top secret".Details- Quantity:100 pieces- Assembled puzzle size:15.2x23.9x13.5 cm and 5.93x9.32x5.27 in- How much time is needed?30 to 60 minutes, depending on the number of details and the willingness to do it as quickly as possible to enjoy the process.
