from **21,79 EUR**

Item no.: 386834
shipping weight: 0.40 kg
Manufacturer: Philippi Design

Product Description

COOL GENTLEMAN'S ENJOYMENT If you prefer whisky, scotch or bourbon from the top shelf, it is not very important to water down the liquid gold with ice. That's why the COLLINS ice balls replace their securely sealed interior with a cooling gel, which takes over this job ice-cold after approx. 4 hours in the freezer compartment. The impressively shiny matt stainless steel casing with titanium coating is absolutely food-safe, neutral in flavour and reusable and environmentally friendly. A true gentleman's delight to give as a gift in a stylishly presented black gift box. - Material: Stainless steel with titanium coating - Weight: 350 g - Length: 5 cm - Width: 5 cm - Height: 5 cm
