### Product Description

EVERYTHING BUT HOPE Amateur ufologists with a keen sense of botany will get their money's worth. The extraterrestrial design of the HOLM vase favours dried decorative grasses and twigs, creating an exciting contrast between the futuristic body and the organic branches. Alternatively, HOLM is also ideal as a planter for kitchen herbs, lavender or cacti and similar succulents. Either way, thanks to the additional slate grey powder coating, the vase sets accents in any contemporary living environment. - Material: powder-coated steel - Weight: 1.37 kg - Length: 27 cm - Width: 27 cm - Height: 13 cm
