Product Description

SLING Flexible Sink Caddy, black

Umbra Sling Flexible is a sink tray, multifunctional holder for Kitchen sponge, pot scrubber, dish brush, dishcloth and more.

Nobody wants to wash their dishes with a stale sponge - and nobody wants a sink tray that keeps slipping or falling. With this practical sink rack, all this is no longer an issue.

We present the Umbra Sling Flexible Sink Tray by Umbra: Sling is a flexible, non-slip sink tray that can be placed over the partition of the double sink or over the kitchen tap without slipping. The flexible sponge holder with its non-slip material is guaranteed to stay in place while you do the dishes. Sling has a recess that is large enough for a dishwashing brush. The perforated base prevents water accumulation and keeps the sponge, dishcloth and pot scrubber dry.

Sling can be easily cleaned with warm soapy water. Sling measures 26 x 11 x 1 cm and is available in various colours. Order your Sling sink tray from Umbra today and keep all your sink utensils handy and tidy.

Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home & living.
