Product Description

Umbra Twilight double curtain rod, extendable curtain rod with rounded ends for ideal room darkening. Twilight's innovative wrap-around design on the curved end pieces eliminates any light incidence, as the curtains can be drawn completely closed on both sides without any gaps. To do this, pull the curtain around the curved end piece of the curtain pole and clamp it behind the bracket so that no light can penetrate from outside. Twilight curtain pole has a stable diameter of 1.9 cm and is suitable for light to medium-weight curtains weighing up to 10 kg. The double curtain pole is ideal for 2 curtains and is available in different sizes. *Note: The rod with a diameter of 1.9 cm includes another rod with a diameter of 1.6 cm. Note: Sizes 122-224cm and 224-367cm are supplied with an additional centre bracket. - Room darkening: The innovative wrap-around design on the curved end pieces allows curtains to be drawn completely without gaps on both sides, guaranteeing ideal room darkening- Easy installation: Twilight curtain pole is supplied with all the fixing materials required for easy installation- Perfect for different types of curtains: Twilight curtain pole is perfect for curtains with eyelets, back tabs, ruffle tape and tabs- Sturdy And Durable: Made from sturdy metal and is suitable for light to medium weight curtains up to a maximum of 10kg. Perfect for any room in your home- Original Design & Satisfaction Guaranteed: Our team of international designers bring thought, creativity and original design to everyday objects. - Material : 88% steel, 12% aluminium- Dimensions (L x W x H) cm : 168 x 13 x 6 - Designed by: MAURICIO AFFONSO & PAUL ROWAN- Diameter: 1.9 cm
