4945 - BMT SAND AND WATER MILL

from **23,21 EUR**

Item no.: 374616
shipping weight: 0.50 kg
Manufacturer: dantoy

Product Description

A lovely set with a shovel, a sand mould and a large mill through which both sand and water can run. The mill has a seesaw and a sluice so that the child can decide how much sand or water is channelled through the wheel. The set provides ample opportunity for sensory play and exploration in nature on the beach or in the sandpit, and also strengthens the child's fine motor skills and eye and hand coordination. The sand and water mill set from Blue Marine Toys, like all the other toys in this series, is made from recycled plastic from marine equipment such as nets and ropes. These leftover materials are processed into toys in the Danish town of Hobro instead of ending up in the oceans. The Blue Marine series invites children to play with sand and water in the great outdoors - in a natural environment that we must take care of and protect. With Blue Marine Toys, dantoy is setting a sustainable, preventative example for precisely this. The sand and water mill set is a dantoy toy made in Denmark from recycled waste material from the shipping industry. The set consists of 3 parts in pretty blue marine colours, which may vary slightly due to production. The recommended age group for this product is 2+ years. Age group 2+ years The recommended age group for this toy is 2+ years. Dishwasher This toy is dishwasher safe. Card This toy is packaged on a card. Promotes fine motor skills Recommended for developing fine motor skills Hand-eye coordination Recommended for improving hand-eye coordination
