Product Description

Discover boundless elegance: our PHILIPPI vase set
Plenty of scope for your creativity
Our PHILIPPI vase set consists of five unique vases, each with its own height and shape. Whether used individually or in customised combinations, the vases merge into an impressive unit that never gets boring. Each new arrangement opens up new possibilities and inspires new creations.
Masterful shape and colour
The vases are made of extra-thick-walled glass, mouth-blown and coloured in a mysterious smoky grey. Each vase is designed with a unique, curved shape that perfectly matches the others. This harmonious combination makes the vases appear as if they were made for each other and conjures up a fascinating ensemble in your home.
Simple is best
The dark body of each vase is complemented by an extra-thick, crystal-clear base, creating a stunning contrast. For maximum effect, we recommend a reduced colour selection for the flowers - this way, the vases stand out particularly well and unfold their full effect. Treat yourself to this piece of timeless elegance and transform your home into an oasis of inspiration. With our PHILIPPI vase set, every room becomes a work of art that never fails to inspire.
