Product Description

BONFIRE barbecue grill with hook HEAVY, MIGHTY, BLACK: This is exactly how a fire basket should look! Its three brass-coloured legs provide exactly the luxurious contrast that will not have escaped the envious glances of the neighbours PRACTICALLY DIVIDED IN TWO: To refill charcoal, one of the two halves can be quickly removed using the hooks provided, while the food continues to sizzle comfortably on the other THIS IS HOW THE FIRE BASKET BECOMES A GRILL First grill, then chill: The perfect complement to the BONFIRE fire basket is the two-part, cast-iron grill grate from the series of the same name. This turns the cosy campfire into a barbecue station for juicy steaks and crispy sausages. To refill with charcoal, one of the two halves can be quickly removed using the hooks provided, while the food continues to sizzle comfortably on the other.
