### Product Description

ESCALERA light object  
THE PEACE ITSELF: Apart from the name ESCALERA, there is little to nothing escalating about this lantern - on the contrary, it radiates such a wonderfully harmonious calm that you have to be careful not to suddenly drift off into a cosy slumber  
STEP BY STEP: The staircase-shaped arrangement of the individual holders puts the tea lights in a state of suspension, which their viewers may soon reach if they look at them for a while. Well, at least that's how it was intended  
GIFT ME: A little deceleration is good for everyone from time to time, which is why ESCALERA is such a great gift without any escalation
