Product Description

RUNNING: Fine footwear and all types of loafers always need a smart shoehorn. In addition to its everyday capabilities, PHIL impresses above all with its unrivalled modern design.
ABOUT SHORT AND LONG: Best in combination. The short version is ideal for travelling and the long version is easy on the back when things need to move a little faster.
PRACTICAL: The highly polished stainless steel is accompanied by an elegant leather loop, which makes it easy to hang up in the dressing area when not in use.
GOOD TO (M) FOOT: A smart shoehorn is always a must for fine, welted shoes and all types of loafers anyway. In addition to its everyday capabilities, PHIL impresses above all with its unrivalled modern design. The short version for travelling and the pleasantly back-friendly long version made of highly polished stainless steel are accompanied by an elegant leather loop, which makes it easy to hang up in the dressing area when not in use. Solid and stable and at the same time so wonderfully purist and ergonomically shaped, PHIL is one of the household helpers you won't want to do without.
