Product Description

FRAMES WITH MAGNETIC ATTRACTION FORCE The transparency of the acrylic puts pictures in a state of suspension. In addition, new, unseen effects are created as soon as frames overlap or are positioned in front of backgrounds such as wooden or brick walls. The frame made of transparent grey acrylic with a smoked glass look is wide enough to do without an additional stand on the back. The resulting 90° angle gives it a young, architectural look. Hanging is of course also possible. In the complete absence of brackets and staples, this is the most practical frame imaginable. Held together by 4 inconspicuous magnets, pictures and collages can be changed in seconds. - Material: acrylic glass, magnets - Weight: 400 g - Length: 23 cm - Width: 18 cm - Height: 4 cm
