### Product Description

**BONFIRE fire basket** HEAVY, MIGHTY, BLACK: This is exactly how a fire basket should look! Its three brass-coloured legs provide exactly the luxurious contrast that will not escape the envious glances of the neighbours. SIMPLE TECHNOLOGY, GREAT COMFORT: The interior of the BONFIRE is complemented by a removable grid at the base and also has a lockable outlet for easy ash removal. THERE'S MORE TO IT: A split grill grate with hooks can also be purchased. In this case, the logs are replaced with charcoal and the BBQ can begin. Now is the time to invite the neighbours over. FIRE AND FLAME FOR BONFIRE: Heavy, powerful, black - this is exactly how a fire basket should look! Solid, powder-coated steel with a removable ash grate at the bottom and a lockable outlet for easy ash removal. The three brass-coloured legs provide exactly the luxurious contrast that will not escape the envious glances of the neighbours. A two-part grill grate with hooks can also be purchased. In this case, the logs are replaced with charcoal and the BBQ can begin. However, the neighbours should be invited at this point at the latest. Stylish fire baskets: elegance and functionality for cosy outdoor evenings. Fire baskets are central elements for atmospheric outdoor decorations and ideal for sociable evenings in the garden. A high-quality fire basket made of powder-coated steel combines robustness with an attractive design. The removable ash grate and lockable outlet make cleaning and maintenance easy, so that the fire basket is always ready for use. The brass-coloured legs provide a luxurious contrast to the black steel and make the fire basket an eye-catcher in any setting. An additional grill grate allows the fire basket to be converted into a BBQ grill by replacing logs with charcoal. This makes the fire basket not only a source of heat, but also a versatile kitchen accessory for the outdoor area. A fire basket is more than just a functional object; it helps to create a cosy atmosphere and invites you to spend relaxing evenings with family and friends. It is perfect for festive occasions or simply to transform the garden into an oasis of well-being. To summarise, fire baskets made of powder-coated steel offer a perfect combination of functionality and stylish design. They are a must-have for anyone who values elegant and practical outdoor decoration.
