from **55,89 EUR**

Item no.: 345901

shipping weight: 1.00 kg

Manufacturer: J.Tiedemann Manufaktur & Design

Product Description

Bicyclist, wind chime made of stainless steel

J. Tiedemann Manufaktur & Design has been producing figures and sculptures made of stainless steel for the house, terrace, balcony and garden in Germany for about 15 years. The wind chime turns and swings in all directions, even in light winds and in stronger winds the movements remain gentle and graceful. The stick is split in the middle to be plugged together. If the wind chime is to be used as a decoration, e.g. on the balcony, only the upper part should be used because of the height. The surface of the material is treated to repel dirt and is rust and weather resistant.

Dimensions

- Height: 170 cm
- Width: 80 cm
- Stainless steel balls: 60 or 100 mm
