Product Description

Kikki, climbing support and garden decoration

J. Tiedemann Manufaktur & Design has been producing figurines and sculptures made of stainless steel for house, terrace, balcony and garden in Germany for about 15 years. Among these figures is this garden decoration Kikki which can serve as a bird fat ball holder for feeding the birds in the winter and a support for tendrils. The surface of the stainless steel balls is colorfully galvanized (not painted), making it rustproof and weatherproof.

- Height: 142 cm
- Width: 16 cm
- Bird: 11 cm high
