Product Description

Professor owl with book - sculpture made of precious steel and natural stone, with glass eyes

Stainless steel leaves no rust stains on the stones of the terrace. The figures are water, rust and frost resistant. In an elaborate process the surface of the material is hardened and treated to be dirt-repellent, so that the sculptures have a long life. If after many years the material becomes matt, it can be easily repolished with stainless steel cleaner. The figures will have small deviations from the shown unique pieces, because they are handmade. Through years of experience the quality is always the same. We obtain the most beautiful hand-picked stones from many parts of Europe. No stone is like the other in shape and colour.

The company Tiedemann Manufaktur und Design was founded in 1985. We have been producing figures and sculptures for house, terrace, balcony and garden for about 15 years. All items are produced in our workshop in Germany and leave the manufactory after careful examination. We have made it our business to deliver the best quality and the most beautiful design at a good price.

- Stone bird made of stainless steel and natural stone, for the garden, terrace, balcony and the apartment.
- Surface of the material is hardened and treated to be dirt-repellent.
- Quality is always the same. Each bird is unique, made in Germany.
- Ideal as a gift for someone who collects owls. Perhaps also for a professor or someone who is particularly clever?
- High quality stainless steel
- Water, rust and frost resistant
- Dirt-repellent treatment
- Height: approx. 28 cm
