13204300504 - POP II MIPS M Black Matt

from **39,93 EUR**

Item no.: 397784
shipping weight: 0.30 kg
Manufacturer: KED Helmsysteme

Product Description

POPPOP - the first of a new generation of children's helmets. With the fully integrated Mips® brain protection system and state-of-the-art inmould technology, KED® defines a new high-end protection level for children's helmets. POP kids can also look forward to a super comfortable fit. The finely graduated K-FIT adjustment system allows children to fine-tune the helmet with ease. The integrated flashing LED rear light ensures maximum visibility in road traffic. The high-quality, moisture-absorbing microfibre lining keeps the head pleasantly dry. And the intelligently designed ventilation ensures optimum ventilation values even at high temperatures. The design of the helmet shell guarantees the optimum balance between lightness and very good shock absorption values. Whether in road traffic or on their first laps in the bike park - kids are perfectly equipped with a POP.
