11103046314 - Pector ME-1 M Olive Matt

from **85,59 EUR**

Item no.: 397735
shipping weight: 0.40 kg
Manufacturer: KED Helmsysteme

Product Description

Pector ME-1 Whether on a classic mountain bike or an e-MTB, the KED® PECTOR ME-1 is one of the world's safest and most comfortable mountain bike helmets. It complies with the NTA 8776 standard for S-pedelects and e-bikes and can therefore absorb considerably more impact energy than conventional bike helmets - and is pleasantly lightweight. The PECTOR ME-1 is also equipped with the Mips® Brain Protection System. Comfort starts as soon as you put it on. The BOA® Fit System integrated into the head ring makes adjustment child's play and enables the perfect fit with a twist. The intelligent ventilation also contributes to the excellent wearing comfort, even when tackling a full-day tour. The visor can be adjusted in three stages with one hand. The strap system impresses with its ingeniously easy-to-use magnetic FIDLOCK® fastener.
