Product Description

- Fun sculpture made of stainless steel and natural stone, decoration for the garden, patio, balcony and home.- Approx. 35 cm high.- The surface of the material is hardened and treated to be dirt-repellent.- No two stones are the same, deviations from the photo emphasise the handmade nature of the work. - Quality is always the same. Each bird is unique, made in Germany.- An exclusive gift for teachers, professors, friends and acquaintances that speaks for your good taste. Stainless steel leaves no rust stains on the stones of the patio. The figures are resistant to water, rust and frost. The surface of the material is hardened in an elaborate process and treated to be dirt-repellent so that the sculptures have a long service life. If the material becomes dull after many years, it can simply be polished with stainless steel cleaner. The figures will vary slightly from the unique piece shown, as they are produced by hand. Years of experience mean that the quality is always the same. We source the most beautiful hand-picked stones from many parts of Europe. No two stones are the same in shape and colour. The company Tiedemann Manufaktur und Design was founded in 1985. We have been producing figures and sculptures for the house, terrace, balcony and garden for around 15 years. All items are produced in our workshop in Germany and leave the factory after careful inspection. We have made it our mission to deliver the best quality and the most beautiful design at a good price.
