### Product Description

Most parents have experienced that their children like to help out when they vacuum, swing the dustpan, etc. With this set, the little ones can now also help with the cleaning. Through role play and imaginative play, children imitate the everyday tasks of adults, and this set is perfect for this. The set is also ideal for developing motor skills as children learn to use their hand-eye coordination. The set consists of 6 pieces and children can take turns playing with them or use them individually. - Age group 3+ years The recommended age group for this toy is 3+ years. - Balance-enhancing Promotes balance Recommended for promoting balance - Promotes fine motor skills Recommended for developing fine motor skills - Facilities This set is a suitable size for nurseries and other facilities. - Promotes interaction Promotes interaction Recommended for promoting interaction between children and adults - Motor disorder Recommended for developing motor skills - Revitalises imagination Recommended for promoting imagination - Hand-eye coordination Recommended for improving hand-eye coordination - Strengthens social skills Recommended for developing social skills - Strengthens self-confidence Recommended for strengthening self-confidence
