Product Description

With this toolbox, children have the opportunity to engage in many hours of role-play and construction play. Children love to imitate everyday situations, especially when it comes to building and repairing things. The toolbox contains many different items such as screws, nuts, hammers, screwdrivers and much more. There is a lot of learning in the toolbox as you can use your imagination, for example by counting all the parts, sorting them, learning their functions, how they are used and what they are called. Only the imagination sets the limits for learning here. -Age group 3+ years The recommended age group for this toy is 3+ years. -Promotes fine motor skills Recommended for developing fine motor skills -Facilities This set is a suitable size for nurseries and other facilities. - Promotes interaction Recommended for developing fine motor skills. Promotes interaction Recommended for promoting interaction between children and adults - Motor disorder Recommended for developing motor skills -Hand-eye coordination Recommended for improving hand-eye coordination -Strengthens social skills Recommended for developing social skills -Stimulates the imagination Recommended for stimulating the imagination -Strengthens self-confidence Recommended for strengthening self-confidence
