Product Description

molly collection - Chair Molly natural

When simplicity meets efficiency. At the interface between tradition and modernity, the Molly chair was created. It is made of beech wood, which combines strength and durability with a modern look.

The inspiration for the chair came from classic Scandinavian plywood designs, but we dared to use our imagination and put a twist on it. Instead of moulding wood into plywood, we moulded plywood into wood. The result is a simple, elegant, comfortable and multifunctional design object.

It is made of natural beech plywood, which is sustainable, expressive and warm. Thin layers of wood are pressed together, sanded and coated with natural oils.

We ship our chairs disassembled. The volume of 4 disassembled chairs is equal to the volume of 1 assembled chair. In this way we reduce the ecological footprint to a maximum.

Thanks to its modularity, assembly is very easy. Strong and durable beech wood combined with a modern, thoughtful design is not only beautiful, but also very useful.

The chair is also back-friendly, as it ensures a correct posture when sitting. Its flexible backrest adjusts itself and gives the user's back a pleasant feeling of massage and relaxation.

- Size: 86 cm x 36 cm x 44 cm
- Material: beech wood
