Product Description

- Stainless steel natural stone, decoration for the garden, terrace, balcony and home. - Using a machine developed by us, we can smooth the surface of the stainless steel, harden the material and treat it to make it dirt-repellent. - No two stones are the same, deviations from the photo emphasise the craftsmanship. - Quality is always the same. Each bird is unique, made in Germany. - Exclusive gift for friends and acquaintances, for birthdays, for garden pond owners. - The stainless steel bird is made in a facility for people with disabilities. Stainless steel leaves no rust stains on the stones of the patio. The figures are resistant to water, rust and frost. The surface of the material is hardened in a complex process and treated to be dirt-repellent, so that the sculptures have a long service life. If the material becomes dull after many years, it can simply be polished with stainless steel cleaner. The figurines will vary slightly from the unique piece shown, as they are produced by hand. Years of experience mean that the quality is always the same. We source the most beautiful hand-picked stones from many parts of Europe. No two stones are the same in shape and colour. The company Tiedemann Manufaktur und Design was founded in 1985. We have been producing figures and sculptures for the house, terrace, balcony and garden for around 15 years. All items are produced in our workshop in Germany and leave the factory after careful inspection. We have made it our mission to deliver the best quality and the most beautiful design at a good price.
