The figures are resistant to water, rust and frost. The surface of the material is hardened in an elaborate process and treated to be dirt-repellent so that they have a long service life. If the material becomes dull after many years, it can simply be polished with stainless steel cleaner. The figurines will vary slightly from the unique piece shown, as they are produced by hand. Years of experience mean that the quality is always the same. We source the most beautiful hand-picked stones from many parts of Europe. No two stones are the same in shape and colour.
