11103360506 - Spiri II Trend L black matt

from **41,52 EUR**

Item no.: 352679
shipping weight: 0.30 kg
Manufacturer: KED Helmsysteme

Product Description

The KED SPIRI II TREND sets new standards as an all-rounder. More comfort. More safety. More off-road. The K-Fit adjustment system and the newly developed strap holder for easy adjustment of the straps ensure a perfect and comfortable fit of the helmet. Whether uphill or downhill - the integrated reflector and the switchable LED rear light with two modes protect day and night.

With the compact K-FIT adjustment system, we have developed one of the most comfortable systems currently available. The rotary wheel allows precise adjustment of the head ring in both directions. K-FIT combines active and passive visibility thanks to the integrated reflector and switchable LED rear light with continuous and flashing mode.
