### Product Description

The "king of the savannah" is here with his classic charismatic pose and stately appearance. It is no wonder that these family orientated animals are referred to as "prides" due to their loyal and proud personalities. Lions are gifted hunters with great eyesight, long claws, fast speed and high jumps - 80 - 95 % of the hunting is done by female lions! The male lions are at home defending their territory and protecting the family. Good for nature AND for you! EUGY not only encourages creativity, but is also environmentally friendly. So go ahead... bring your wilderness home! Our products are 100% compliant with international safety standards (EN71-1,2,3 and CPSIA). An EUGY pack contains 7 flat cards with individually numbered pieces that you can assemble yourself.
