Product Description

MIDNIGHT blackout curtain rod 107-305 cm, nickel

Midnight is a decorative, room-darkening window solution with an innovative wrap-around design that prevents the incidence of light. To ensure that your curtain or drapery panel is flush against the wall, wrap the panel around the curved end of the rod and hide it behind the bracket to prevent outside light from entering.

Midnight is strong and sturdy 3/4-inch in diameter and is designed to hold light to medium weight curtains, with a maximum capacity of 10 kg. This double curtain rod can hold 2 curtains and is available in several sizes.

About Umbra: Umbra is an international design company that is known for original, modern, cool, functional and affordable products for home and living.
