Product Description

The magnetic, intelligent 365 perpetual calendar from the Philippi brand is a calendar like no other! Thanks to its magnetic power (literary!), it can be used every year. What's more, it tempts you to look at it every day and ask how it works. So... how does it work? Thanks to the magnetic mechanism, the individual dates and days of the week are marked by white, black and red balls equipped with magnets (red stands for days of the week, white for today's date and black for months). The calendar can be placed on the dresser (it has a removable stand) or hung on the wall (thanks to an attached wall mount). It is an excellent gift for any businessman, businesswoman or simply anyone who loves unusual objects!
