Product Description

Basco XL, brown matt

A riding helmet is more than a safety measure. As an integral component of your riding outfit, it is a part of your individual look – whether classic or casual. We use technical expertise and state-of-the-art materials to produce extraordinarily slim and lightweight riding helmets with especially elegant designs. When it comes to comfort, fit and interior fittings, we set new benchmarks in international equestrianism.

This riding helmet is equipped with maxSHELL(R) technology, QuickSafe(R) adjustment system and has 13 ventilation openings. It was tested according to VG1 01.040 2014-12.

- QUICKSAFE(R): Our QUICKSAFE(R) system is a tried-and-tested system that has proven itself millions of times over. It provides optimal operating comfort. Precisely-graduated fine adjustment in both directions with a single turn.
- MAXSHELL(R): maxShell(R) process, which are produced exclusively in Germany. The maxShell(R) technology provides an increased elasticity of the bond between the helmets top shell and its down shell, which has a positive impact on the shock-absorbing properties.
- Colour: brown matt
- Size: XL (60 - 64 cm)
- Weight: 510 g
- Tested according to VG1 01.040 2014-12
