Product Description

RINGO Chair, grey

A real eye-catcher, this organically shaped chair with a curved metal frame is made from a moulded wood fibre composite and a rustproof metal frame. Ringo can be used both indoors and outdoors and has an ergonomic, injection-moulded seat that allows for comfortable sitting and lounging.

- Easy to stack: use multiple Ringo's to create the ultimate patio set
- Unique design: Ringo contrasts the geometric shape of the continuous ring-shaped frame with the smooth, organic shape of the seat, giving the impression that the seat floats or merges with the ring
- Made of durable materials: A moulded wood fibre mix provides an organic, modern look
- Outdoor or indoor living: The rust-resistant, curved metal frame is perfect for indoor or outdoor use and can withstand sun and rain
- Ergonomic seat: Ringo's ergonomic, injection-moulded seat makes sitting comfortable and interesting to look at at the same time

About Umbra: Umbra is an internationally operating design company known for original, modern, cool, functional and affordable products for home and life.

- Colour: grey
- Material: steel, polypropylene, wood
