from **62,75 EUR**

Item no.: 331414
shipping weight: 0.10 kg
Manufacturer: Reutter Miniaturen

Product Description

Cheese shelf

Let us introduce you to our wonderful world of miniatures. We have put together many small arrangements which are suitable for every occasion. For example this cheese shelf made of metal. Wonderfully decorated cheese boards made of porcelain and wood with cheeses from all over the world and matching cheese knives. Even a fruit bowl should not be missed.

Skilled workmanship and attention to detail give our miniatures that special Reutter look. Most of our porcelain pieces are handpainted with 24k gold and fired at 800°C (1470°F). Our tiny masterpieces fascinate people all over the world and stimulate a passion for collecting. All Reutter miniatures are carefully made by hand with the greatest care.

Reutter often uses brass or gold-plated and silver-plated miniature articles, each of which has its own metal mould. Reutter uses high quality birch wood and fast growing willow wood. This benefits the environment.

Our little creations are the perfect addition to your dollhouse, miniature scene or classic setting. As all miniatures can be easily removed from the packaging, they can be used to fit into any of your creative displays.
